The cost of high knowledge retention is very small when compared with various traditional learning methods. For example, in learning a language, the vocabulary of an educated native speaker can be retained in SuperMemo at the cost of 20 minutes per day in the first years of the process, and mere minutes in later years (assuming the original set is acquired in portions spread over 4 years in 30 ...

I was among the first 50 students to start the Amazon Sharks course back in January 2018. When Andrew first announced the course release date in late 2017, I could barely wait to get going but it was certainly worth it to get the best coaching out there, especially since most other courses are based on the US Amazon

platform.
