### **Population Problems And Catholic Responsibility**

The problem of uncontrolled population growth emerges as one of the most critical issues of our time since it influences the welfare and happiness of all the world's citizens.

### **The Growth of World Population: Analysis of the Problems**

In 2017, there are an estimated 962 million people aged 60 or over in the world, comprising 13 per cent of the global population. The population aged 60 or above is growing at a rate of about 3 per cent per year. Currently, Europe has the greatest percentage of population aged 60 or over (25 per cent).

### **Key Findings WPP 2017 Final EMBARGOED - UN DESA**

5 The consequences of rapid population growth This chapter shows that rapid population growth rates above 2 percent, common in most developing countries today acts as a brake on development. Up to a point, population growth can be accommodated: in the past three decades many countries have managed to raise average
