Safer Choice is a voluntary program that works to advance the mission of EPA to protect human health and

the environment by helping product manufacturers choose the safest chemical ingredients possible.

### **Safer Choice | US EPA**

Life is a characteristic that distinguishes physical entities that have biological processes, such as signaling and self-sustaining processes, from those that do not, either because such functions have ceased (they have died), or because they never had such functions and are classified as inanimate. Various forms of life exist, such as plants, animals, fungi, protists, archaea, and bacteria.
